

I listen to Air 1 on my daily commute. It is a source of calm amid the stress of traffic. My husband and I both enjoy the positive messages and music that Air 1 provides. Air 1 is a great asset to the community and to anyone who listens. It provides hope for discouraged and lonely people and it brightens the day of all listeners. Air 1 promotes "family values." Please don't silence this voice. There are few places on the radio providing this positive and encouraging influence. I believe Christian stations are the only consistently positive influences on the community from the radio.
